FUJITSU

Greetings from the Planet Teo!

The humans over at Fujitsu Interactive asked me to write to you and tell you that I will be one of the best-selling virtual pets this holiday season. Since I am a digital creature, these geniuses have been busy cloning me and manufacturing thousands and thousands of copies of me in a PC CD ROM package they call **FIN FIN: The REAL Computer Creature**. They even included a free microphone and whistle in the box to make it real easy to communicate with me.

I thought you might want to take a quick look at Teo and me for yourself, so I enclosed with this letter -**MYSELF** (on a CD ROM, of course), my clever press release, a sell sheet, some slides—feel free to splash my picture anywhere you'd like—and a pencil and tattoo (just because I'm so cute!) Check it out.

See you soon!
Fondly,

FIN FIN
